

Journal Notes

of Vernon Bailey
1834 Kalorama Road
Washington D.C.,
1937

Diurnal Mammals

at Washington 300
Aug. 8+9, 1937

- Most carnivores in part
Tierra in particular
- Most squirrels
Marmota
Citellus
- Sigmodon, mainly
Sciurus except white
squirrel from
~~*Missodiplopis*~~, apparently

Nov. 3, 1937

- Left Washington for Fallon, Nevada, at 5 PM. T.O.D., Conn.
- UP & SP around by Oakland, Los Angeles, New Orleans, Louisville and Cincinnati to point of starting.
- Testing Verbal traps for demonstration purposes for Nat. Humane Assn.
- Warm and pleasant. No hard frosts as yet.
- Autumn colors not all gone.

To Chicago Nov. 4, 1937

- Arrived Chicago 8:20 AM
Left 10:38 P.M. on
C. & N.W.R. Pacific Limited -
Heavy frost in morning.
Clear and warmed snappy.
Grass green but tree
bore, colors brown and
yellow and gray.
Good crops.
Fat cattle, hogs & sheep.

NOV. 4, 1937

Dakota City, Colo.

The sun rose at
Juliette right out of the
short yellow grass into a
blue sky, warmed still
and pleasant. No frost.
A good growth of grass and
weeds and a prosperous look
to the country. Very little stock
all shipped out to be fed.
Noticing young cottonwoods
along Poly Creek with a
redish Pine Bluffs where
pines & pinyons cover the
riparian of a limestone
platform. Some crops on
irrigable bottoms, corn
sugar beets, alfalfa, coffee
beans & small crops -

No snow over the ~~lava~~^{mesa}
mts, but plenty of it ^{on}
the Colorado mts. to
the west and on the
Elk Mts beyond.
Sagebrush all dry.
Some ice on roads -
dark at Rock Springs.

Hazen Woods Nov. 4, 1937

Daylight at Pallasaid
Reached Hogan at 11:20
Out to Fallors.

Country dry & unchanged
in the 48 years since I saw
it first.

Wasn't cold still, not
much frost, but trees bare
and vegetation brown & yellow
A tree 19 year green still
on the sagebrush
Just a trace of snow on
north slopes of highest
peaks.

Reached Fallors about noon
and went out on a small
line of traps. Found nothing
in them, set 2 dead
traps and one for porcupine

Fallon Sunday, Nov. 7, 37

Went with Vernon Wills on his big trap line of about 200 coyote traps on a circle of about 100 miles. Didn't catch anything. About 80 coyotes have been caught on the line in a month and they are getting scarce. Will try moving onto new ground soon.

A few badgers, two desert foxes and one bobcat have been caught. A few eagles, hawks, owls and magpies have been caught.

Clear & warm, a little frost

Went down around Carson lake where we saw about 9000 snow geese, a few thousand ducks and 58 Canada geese. Hunters were shooting at them and scared them up out on the big mud flats of Carson Lake.

There said to be more geese and ducks in the sink of the Carson.

Went out to Soda Lake in PM and saw hundreds of ducks, coots and grebes on this deep clear lake in an old cinder cone of a crater.

Fallon, Nev., Nov. 8, 1937

Went to traps west of town
where Porcupines and rattlesnakes
live. Could not find either.

Caught one nice big male
Coyote, fat and weighed 37 lbs.
in no. 7 steel trap.

Took numerous old steel
pictures.

Caught a cottontail in Verba's
trap and a jackrabbit in
no. 3 steel, bodily mangled.

Vernon killed a teal and
a mallard and Margaret
killed 2 mallards on the
wing at 2 shots each.

Caught 2 coyotes in
steel traps that escaped.
One pulled a trap jaw set
and one pulled off
one toe.

In P.M. explored trap
ground beyond Hazel
but found only a few coyote
and kit fox tracks, mostly
old.

Ray Alcorn went
with us. and Mrs Alcorn
and baby Albert.

Margaret Wills and
her baby, Sidney, went
also.

Saw many bowlers and
a lot of ducks.

A hot day, clear and dry.
Glorious sunset

Tolson - Nov. 9, 1937

Caught 2 coyotes
on the trap line
and got some good
movies and stills

Vernon and Margaret
killed 2 ducks each

Tahoe, Nevada, Nov. 10 + 11

Ernest Walker and his wife came along the evening of the 10th and went with us on the trap line.

Caught two coyotes in the traps over a 100 miles rowed of 200 traps.

Saw a few coyote tracks but they are getting scarce.

Got supplies for a camp trip into the mountains above Riva to trap for bears.

Took up the few skunk traps I had set.

Rained in morning

then cleared off but

snow showed on the mts.

rest day.

Nov. 18 Fallons

Took up skunk traps
packed up for trip to Revs
and reached there by noon.
Went about 10 miles beyond
to near Calif. line. lift
car and climbed 1,000
feet up into timber where
bear tracks had been seen
earlier but found none.

Came back to car after dark
in snow and cold wind,
ground and wood all
wet, couldn't build a
fire and were all

Vernon Mills, Ray Alcorn
and I, so wet and cold
and tired and hungry we
ran back to Revs and got
a good hot supper and then
went over and staid with

Phil and Faith Cawelt
Got dry & warm and had
luxurious beds and a
good visit with my
Nephew and niece and
their two lovely daughters
Faith and Florence.

Reno, Nev., Nov. 12, 1937

Snowed more in the night but cleared off before morning and road cold and pleasant.

Ran up the highway again, left car near Coby. Then got climbing high (to about 8000 feet) on the north slope of Mt.

Rose, well up in Canadian zone, steep and rough and snow getting deeper till about a foot deep to where bear tracks had been numerous in aspen and willow meadows around the spruce and firs, yellow pine, Jeffrey pine, Abies concolor

and magister were about
and very large.

Plenty of deer and coyote
poopat all places no
tracks seen but no
trace of bears.

Evidently they have
hibernated in the many
caves and caverns
or under the huge
boulders of the chrysos
and gabbros and cliffs
and ridges of this
rugged slope.

Gave it up and
came back to the
car and back to
Tucson in evening
after two hard days
walk and a climb from
Lower Sonoran to Canadian

Fallon,

Nov. 13, '37

Went to the steel traps
that had been left out
2 nights and got 2 coyotes.
Got good movie &
still pictures of coyotes
in traps & one Jack
rabbit in steel trap.

Spelled Hovey for
Acetals but did not set
traps

Coyotes trapped at Fallon

Vernon Mills at Day
Alcazar have caught
84 coyotes in the last
6 weeks and sold their skins
at about \$5 apiece.
They have used about 200
Traps and given most
of their time to trapping.
About 5 or 6 others here
in the Carson Valley
have given their time
to trapping coyotes.
Vernon thinks they have
averaged 50 coyotes
each, a dozen boys
or such have caught
a few, probably 5 each.
A probable total of
400 coyotes in our valley.

about 30 miles west
and 40 long.

That means \$2000
in the pockets of a dozen
families, mostly ranchers.
Mills and Alearu are
young fellows about 25
years old, each with
a wife and baby,
getting a start as
ranchers or on
local jobs for part
time. Their fur
harvest keeps them
in comfortable condition
for the winter.

There will be plenty
of coyotes left by
next year but not
enough to do much
damage to stock.

Fallers is in a farming
stock raising and
~~alfalfa~~ valley. Much
forestry, many sheep and
cattle are raised and
it a great small game
valley so the control of
predators is important
but the fees paid a
good profit on the
best killed by control.

Fallon, Nov. 14

Set traps for skunks
at bee hives and baited
them with honey.

Fallow

Nov. 15, 1937

Caught one deer &
~~skinned~~ and put him
in a gunny sack
without any trouble
but when we went to
put him in the back
end of the car he got
excited & spoiled the
sack.

Killed with wounded
dogs and moving
figures taken of all
the process

Fallers

Nov. 14, 37

Caught nothing,
Set more coyote traps
and a bobcat trap
Raining in evening

Fallon, Nov. 16,

Set coyote traps near
home on foot. and
one bobcat trap -

Fallon, Nebr. Nov. 17, 1937

Caught only a ~~fo~~ rabbit
in Verbaile traps but found
skunk tracks at bee hives.

and baited them again
with bread and honey.

Vernon caught two
Coyotes in his main trap
line, one twisted off its
foot and got away
but he shot another
so got two skins.

Caught 2 pack rabbits
in his steel traps &
I got pictures of them as
well as of one in my
Verbaile traps.

Got material for mounting
Coyote, skunk & pack rabbit
in Verbaile traps.

A warm day,
No frost. Dandelions
in blossom.
Cottonwoods still yellow

Nevada Nov. 18, 97

Caught nothing, set
a few more traps.

Vernon Mills caught
2 more coyotes, making
94 in all this year.

Took 10 skins to
Reno and got \$50 for
them.

Baited up skunk traps
with great care,
bread and honey and
bread and butter all
fresh at dark.

A frosty morning but
warm day.

Gave talk at Lions
Club in evening -

Photographed 10 coyotes
skins for Vernon Mills.

Fallon, Nov. 19, 1937

Caught only a big
black and tan dog.
Foot not hurt but
slightly swollen.
Hollered here
without saying thank you.

Not a skunk track
anywhere. Saw one
weasel track.

Skinned skunk caught
5 days ago. Large
old male, very fat,
weighed 7 lbs.

Going to mount him
in soap for Hewan Society.

A warm day.

Laid up skunk traps
again.

Photographed Thomomys canus for
Ray Mearns.

Fallon, Nev. Nov. 1937

Taxidea taxus nevadensis

Badgers are scarce but Vernon Mills says he has released about 25 from his coyote traps this year. Had to kill a few with broken legs.

The fur is still short and they are worth only a dollar or two now.

Lates in winter a prime "silver badger" will bring 16 to 30 dollars.

Most of those seen are brown with short stripes but considerably paler than the California badgers.

They are greatly needed and should be protected to eat *Citellus mollis* which is abundant and destructive.

Nov. 28 Fallon

Yesterday a badger pulled
out of a no. 2 Verdat trap
and today we got out
of a No. 3. It was
caught by a hind foot
but evidently not above
the heel.

A bigger, stiffer trap
may be necessary to
hold them.

Fallon, Nevada, Dec. 3, 37

Drove up to Reno with
Laura Mills after school
and stayed all night at Faith's.
Mild and pleasant -
Ice on ponds in morning.

Rev to Berkley, Dec. 4.

Laura and Faith drove over with me to the annual meeting of the Sierra Club at San Francisco.

Left Rivo at 6 AM and arrived at Berkley 11:30. Had lunch with Fee and Tally and drove across the new bridge in evening to the Gas Lances Lodge Hotel for a 7 o'clock banquet, speeches, moving pictures and dance.

About 300 of the 3020 members of the Sierra Club present, many old friends present, Dr. Hildbrand presided. The speakers were Lawrence Merriam, new Superintendent of Yosemite,

Col. White, Sup't. of
Sequoia and Death Valley,
Mr. Schell of the Forest Service
and myself.

Col. White urged me
to come to Sequoia and
to Death Valley. Offered
to come and get me for
either trip, is much
interested in human types

Berkely to Fallon, Dec. 5

Took Berkeley at 11 AM
and reach Fallon at 8 PM,
with an hours stop at
Reno.

Warm and beautiful at
Berkeley, flowers and berries
abundant, fields green.
Erycholzia is blossoming
along road.

Cold and freezing on
Donner Summit in evening.
Snow 2 feet deep but road
well scraped, dry and smooth.
Hundreds of skiers out
on the snow.

Clear and frosty at Reno
and Fallon. no snow
at Donner Lake.

Fallow

Dec. 4, 1937

Reset and rebaited traps.
Caught only a skunk,
a small one not very fat.
Took pictures & movies
as he went free.

A few badgers, fox
and coyote traps around
traps. Tried live
chicken in cage for bait.
Have tried many peanut
and food baits with no
results.

Have tried Limburger
cheese nor eggs yet.

Fallon

Dec. 10, 37

Vernon Mills caught
a coyote and a big bobcat.
The coyote weighed 21 lbs.,
the cat, 22.
Photographed cat.
Rained a little in
night and morning,
Warren.

Fallon, Nev. Nov. 6 to Dec. 14, 37

Birds

OB.

Zoor. A few seen

Eared grebe, Common

Pied billed grebe, a few

Western grebe, "

White pelican, a few, breed at Pyramid

Farallon Cormorant, a few seen

Great Billed Murre, com. to Dec. 14

Black crowned night heron, breed

Ara. Bittern, one seen, a few

Least bittern, has been taken

White faced glassy Ibis, one seen

Brullduck in summer.

Whistling swan. Many seen

Canada goose, hundreds seen

Lesser " " , one killed, com.

Lesser Snow Goose, 10000 estimated

Mallards, Many flocks

Gadwall, Large flocks, com.

Baldpalt, Many seen to Dec. 14

Fallon Dec. 11, 1937

Got 5 badger traps
south of Lake Lahontan.

Rained hard in night
and part of forenoon
Rained 5 inches at
Donner, Rivers flooded
Snow all gone in Mts.

- Pintail, Large flocks
- Green winged teal, Common
- Blue winged teal, rare, now seen
- Cinnamon teal, a few, abn, breeders
- Shovelers, Common
- Wood duck, A few
- Redheads, Common.
- Canvas back, A few flocks
- Lesser scaups, A few killed
- American Goldfinch. A few. 1♂
- Bufflehead, A few
- Ruddy duck, a few
- Am. Merganser, Common
- Red breasted, a few
- ~~Hooded merganser~~, " "
- Turkey buzzard, "
- Western Goshawk, A few killed
- Sharp shined hawk, Abundant
- Coopers hawk, A few
- Western Redtail, Common
- Swainsons hawk, A few

- Am. Roughleg hawk, common
Ferruginous R.L., A few
Golden eagle, frequently seen
Bald Eagle, A few reported
- Marsh hawk, common
Prairie falcon, Common, 6 in day
Pigeon hawk, One killed, 1 seen.
- Sparrow hawk, common
Sierra Grass, Com. above Reno.
Sagehen, com. east of Fallon
Valley quail, numerous
- Mountain quail, withts. to west
Sandhill Crane, Large flocks
Virginia Rail, reported breeding
- Sora Rail " "
- American Coot, Abn. breed, resident
Killdeer, Still common
- Wilson snipe, common
Longbilled Curlew, Reported
Spotted Sandpiper, com
Solitary Sandpiper, "

- Avoet, abn. breeding
- Blacknecked Stilt, com., breed
- Wilson Phalarope, " "

- California Gull, Common
- Ringed-billed Gull, less
- Bonaparte Gull, several flocks,
- Western Mourning Dove, Com.

- Barn Owl, a few
- Nevada Screech Owl, Com.
- Western Horned Owl, "
- Pacific Horned Owl, (shot)
- Burrowing Owl, Common
- Lougeard Owl, A few

- Short-eared Owl, "
- Kingfisher, a few
- Red shafted Flicker, Abn.
- Horned Larks, by thousands
- Maggie, Common
- Western Crow, A few

- Raven, a few
Ind clared Bushtit, ♀
Sage Thrasher, 1 Nov. 15
Western Bluebird, com.
Am. Pipit, com. in flocks
Cedar Waxwing, 1 flock of 12, Aug. 2.
Northern shrike, 4 seen
Nevada shrike, common
Western Meadowlark, com.
Red Wing blackbird, abu.
Brewer blackbird, abu.
House finch, com.
Sage Sparrow, A few
Junco, com.
Gambel's Sparrow, abu.
Dong Sparrow, com.

Tellur to Oakland

Dec. 14, 1937

A frosty morning but
warm, pleasant day.
Took train at Hager,
11:20 AM.

Water high in Truckee R.
About a foot of snow on
Donner Pass.

Lots of ducks in Sod Lake
Sloughs, hawks abundant,

Indiv dark
Oakland 9 PM

Oakland to Los Angeles Dec. 15
7:30 AM to 6 PM
Get to Mates 8 PM.

Dec. 16

To Geareside and
San Marcos 5 PM.

Dec. 17, 18, 19. San Marcos

Dec. 20, to Los Angeles & return
to San Marcos with traps
and baggage.

A Santa Anna blowing.

Dec. 20

Gave Melvyn to DeLaplaza
and sisters

A Santa Anna blowing

Dec. 21, Twin Oaks

Set six new and six old
coyote traps - very carefully

Dec. 23.

Caught 1 coyote, 1 bobcat
and a cottontail in the
new traps, nothing in
the old.

Took movies and stills of
all.

Killed coyote & cat with
Caibori woodgas gas at
rear of car. Both dead in
less than 4 minutes but
left in 5 minutes to make
sure. No struggle or
screams from either -

Twins Oaks Dec. 23.

Rained hard in night
got nothing in traps
thus a coyote broke out
the old trap stiff chains
and escaped and another
pulled up anchor in new
trap and escaped.

Another got at old
weak trap that I had been
using to catch my finger.

Skinned coyote and cut
for mounting.

Did not reset traps as
it rained by spells
all day.

A fine rain, about a half
inch has fallen and soaked
the ground well.

Twin Oaks Dec. 24, 1937

Caught nothing as the traps were all bedded in clay and mostly would not spring.

Set them more carefully with cloth over pan to keep the water at used Limburger cheese, scapple rabbit & grapes for bait, a little muskrat mink or some

Dec. 25,

Caught one nice coyote and got good photos of it. Killed for specimens by a blow on the frontals with no little hatchet then stood on ribs until dead. No suffering -

Christmas dinner with Henry and Chester in our little house in Twin Oaks Valley

Twin Oaks Dec. 26, 1937

Rained in night and most
of day. Caught nothing.
Took up 2 farthest traps.

Twin Oaks Dec. 27

Caught another coyote
in gulch over hill.
Made a specimen of it -
This is the third in a day.
The two pulled out of weak
trap, one pulled up stake
and took trap with him
and one chewed the chain
in two.

Better than one a day
in 12 traps, not all
good.

Left San Pedro 8:55 AM.
on Bus to Los Angeles
and home - Dec. 28.

Left Los Angeles on
S.P. train for New Orleans
and Washington at 8:10 PM.
Warm and pleasant
Lots of flowers, green grass
and orange.

Went down to Water
until rain time and
Leslie brought me back
to the depo in evening.

Enroute Dec. 29. 1937

- Awoke just before sunrise at Gila, Arizona (used to be Gila Bend) and watched the sun light up the peaks and crests down the slopes and canyons to the valley floors and make long shadows of the giant oaks, palo verde, creosote and other well spaced desert vegetation.
- A perfect clear, mild desert morning with soft rich colors and depth of light and shade. It has been a mild winter for the cottonwoods still hold their golden leaves and even the mesquites are still leafy.

From Wilcox across to
Demming there is an
unusually good stand
of dry grass and many
white faced cattle on it.
There have been recent
rains and water stands
in many pools & ditches.
The cacti and yuccas are
plump and green and even
the creosote bushes have a
luxuriant look.

The sun sunk into the
yucca forest near Demming,
and purple lights crept up
to the rugged peaks to
the S E & N E.

A full day's feast of deserts,
desert life, rich colors
El Paso after dark.

Langtry, Texas to Houston

Dec. 30, 1937

Daylight at Langtry,
then across High bridge of
Devils River to Del Rio
and then to San Antonio.

A rainy morning with
grass and green leaves growing.

Rained most of day.
More mesquites than 20 years ago
away east of Seguin!

Wheat fields green, lots of grass.
Warm and wet

New Orleans to

Dec. 31, 1937

Foggy & rainy as we crossed
the new bridge over the
Mississippi but soon
cleared up and gave us a
beautiful day in New Orleans.

Went out to Audubon Park
and saw all of the 800,
mostly African but some
good big alligators and
numerous native gray squirrels
all over the park.

These squirrels are very
small & dark with no
white on bellies, very
fuzzy fur, short ears
& short tails.

Left New Orleans 1 PM
for Washington via Forestdale
and Cincinnati on
Illinois Central R.R.

through wonderful swampy
lake and bayou country,
along edge of Lake Pontchartrain
across Bayou La Batre,
through great Cypress spangled
swamps, saltwater marshes
and settlements, good for
and some cottonseed.

Good auto road alongid.
Good boat channel
Wonderful camp of
fishing spots.

Great saltwater marshes
with no fresh water
dry gravelled series on
high out at Port Sulphur.

Ponchatula - good town

Old field pine, farms, sandy land.

Hannover - good town & roads.

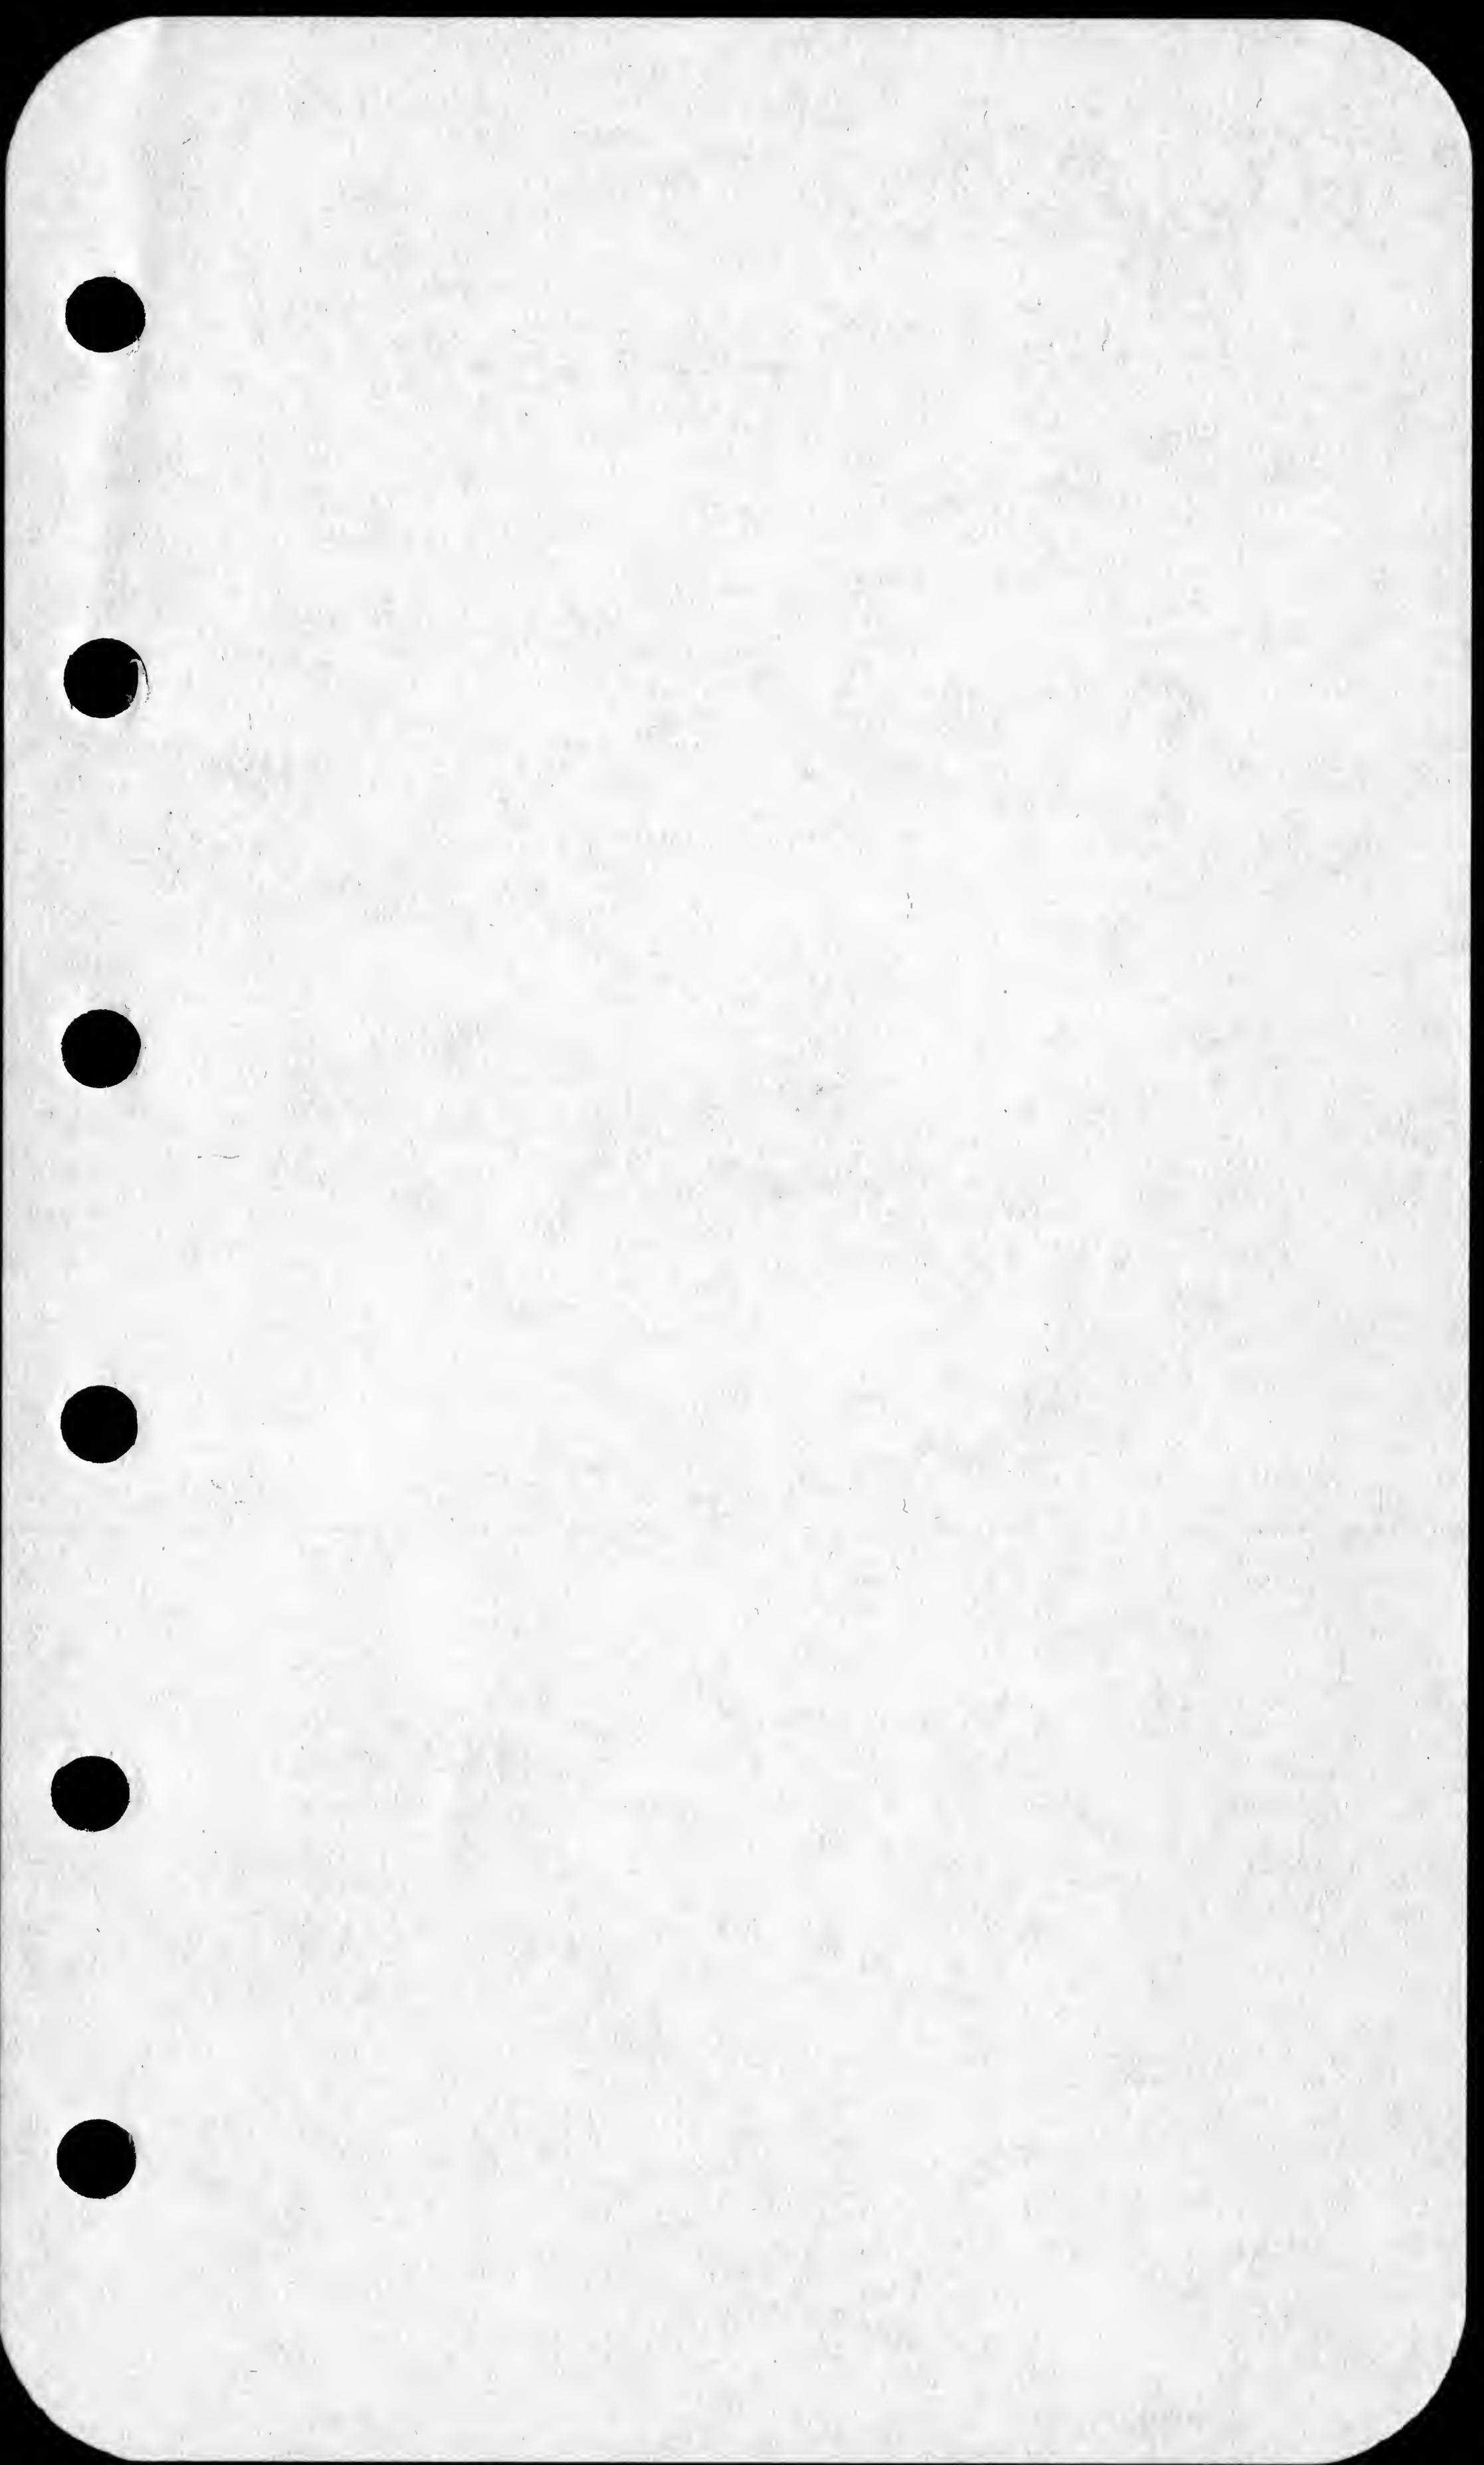

Sawmill, ties & timber.

Longleaf pine & Audobon

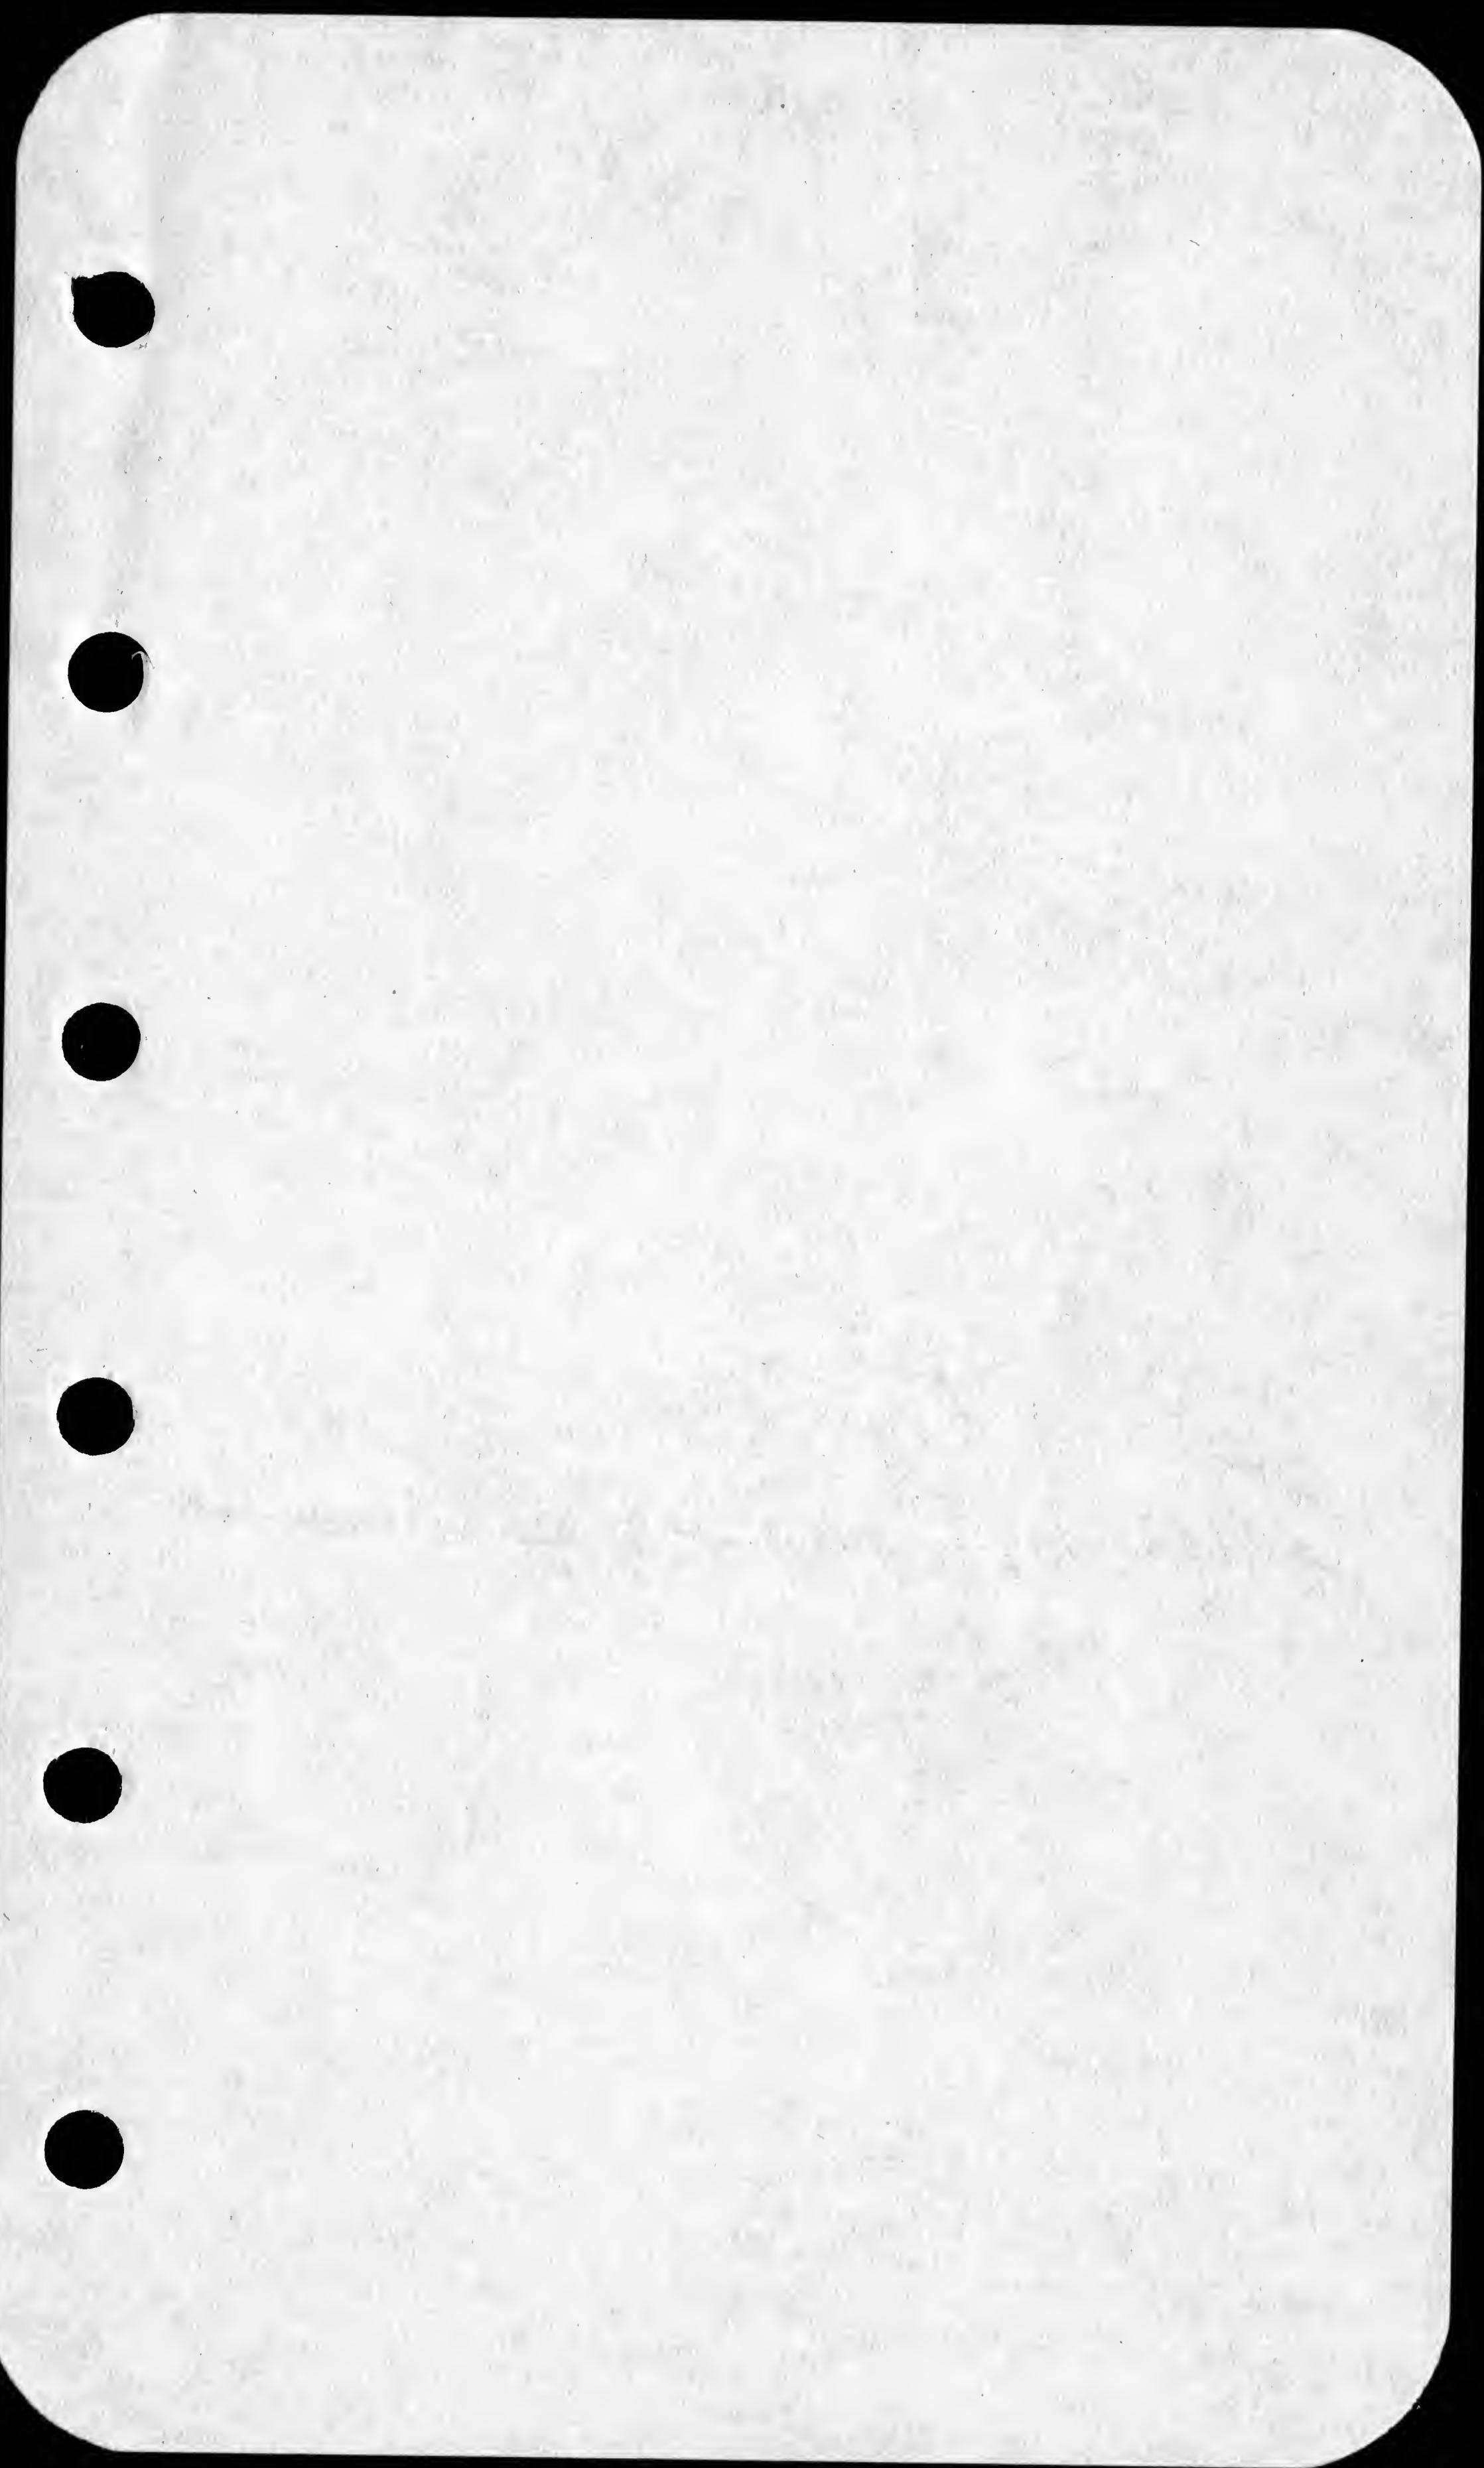

McComb, lumber

Lumber, cotton,

Jackson, farming, tobacco,

Augusta Stiles
40 Church St., Santa Cruz. Calif.
